# WELCOME TO OUR VERY FIRST AUSTRIAN CONVENTION!

Dear Attendees, Team, and Friends,

the day is finally here! Preparations for the Awoostria Con 2024 began eleven months ago in August 2023, and it still feels surreal that the convention is now a reality. In just 2 years we went from hosting a bowling meet with 10 people to organising a Furry con with over 650 attendees.

We want to thank YOU! Thanks to your support and trust, we were able to organise our very first full-blown convention. But of course, behind a great story lies a big team. Countless hours have been spent preparing this event. A BIG THANK YOU to all volunteers, artists, musicians, voice actors, and talented people who breathed life into this project. Without everyone's passionate work and countless efforts this convention would have never been possible.

While you roam around the convention grounds, discovering the unique experiences each room and activity presents, keep in mind that this is our first time too. However, we hope you will enjoy all that the convention has to offer: From panels to dances, from arcade games to concerts. We even got an interactive story for you to experience and take part in.

We already can't wait to hear your feedback! But for now, please enjoy the con!

To an exciting few days! Cheers!  
Chairman and Vice Chairman,

LilNoodles and Vex

# A THIEF AT LARGE! BUT HOW TO CATCH THEM?

Oh no! Theft has struck the Wimberger Hotel!

Our precious exhibit has been stolen and it's now up to you to support Assistant Detective Ace Weyland to solve the „Mystery of the Blue Danube“!

Find clues, interrogate suspects and come to your own conclusions about the timeline of events.

**How interrogations work:** Find the seven character posters with a QR code on them. Scan it and choose one of five questions to ask the suspect. But beware! Each investigator can only ask one question per character. You'll have to work with your fellow attendees to get to the bottom of this crime.

**How clues work:** Clues are scattered throughout the con space represented by hidden QR codes. Scan them to see what secrets they hold. Don't forget to present your findings to Ace by scanning his character QR code.

**All videos can be rewatched (incl. the Opening Ceremony)!**

## MYSTERY OF THE *Blue Danube*

# A 1920s DETECTIVE MYSTERY VN AT A FURRY CON? COOL! WHO MADE THIS?

Hello, dear investigators! My name is Volteer, aka Chris the opossum, head of the hobbyist voice acting studio and YouTube channel Spotted Marten, and lead of the Awoostria story department. About 10 months ago I was approached by the board of Awoostria and hired for this position, with the task of putting together a team for writing and integrating a story into this convention.

Luckily, Mailylion already had formulated the basic idea of using the Godot Engine to set up a visual novel style video, as well as some storyline and character concepts. With already established contacts from my work with Spotted Marten, we quickly took a number of voice actors, as well as an additional writer and editor, on board.

After a bit of brainstorming we had an idea: Since our attendees are already called “investigators” at a con with an explicitly mentioned “mystery” in the title, let’s give them the chance to investigate that mystery! And this is how this whole story event was born. We’ve been working tirelessly since then, writing and recording over 1000 lines of dialogue for our eight characters, getting two illustrators and two music composers on board, editing and putting everything together. And now that the con is actually here, you can read all about how the final product works on the page before this one.

We hope you’ll have as much joy investigating as we had putting it all together, and I want to give a big THANK YOU to the whole Awoostria team and especially to everyone who helped make this unique project a reality in such a short time:

GUEST OF HONOR:

**FREELANCE ARTIST**

*Emily Creative*

EmilyCreative is a self-taught artist from Kolding, Denmark, who has been working professionally for over two years. She has participated as a vendor at 14 conventions in 8 different countries. Emily has created merchandise for multiple conventions and collaborated with other creators such as Pocari Roo.

I developed an interest in art from an early age, fuelled by my love for animation, cartoons, dragons, and dinosaurs. By the age of four, I had already illustrated and written a small book about caterpillars! Throughout my school years, I was constantly doodling on my books, creating my own Pokémon designs, and making fan art.

In 2017, I experienced illness that required a six-month recovery period. During this time, I discovered the Furry fandom and, consequently, Furry art. On the same day, I created my Fursona, Penelope the Dragon! The Furry fandom provided a sense of belonging, and I immediately felt at home. I deeply appreciate the community for its shared creativity, love for art, and self-expression, which continually inspire and excite me to create.

My favourite aspect of my work is creating apparel and merchandise. I cherish hearing stories about the joy my creations bring to others, fulfilling my biggest dream! Helping someone smile is exactly why I do what I do!

Whsprs, „Fox Boy“ 2023, [www.whsprsmusic.com](http://www.whsprsmusic.com)

WHSPRS creates music about digital, non-traditional love. The virtual fox comes from the queer community of the metaverse and finds inspiration in friendships and heartbreak on the social VR platform “VRChat”. His mix of pop-rock melodies contains heartfelt and introverted lyrics about growing up in a borderless, digitized world. WHSPRS is part of a progressive spearhead

group of young individuals who socialize in virtual reality and maintain close connections there and in real life. His multimedial, tech-experimental background has already led to collaborations with digital filmmakers, artists, and performers from around the world.

The fox was musically influenced by his father, who was born and raised in Liverpool. WHSPRS has already played over 250 concerts in total, with live performances at the world's largest VR festivals (including Furality) and at "real life" international art events (Megaplex Florida, Confuzzled Birmingham, Nordic Fuzz Convention Malmö, Furry Weekend Atlanta, etc.). His hits "Fox Boy" and "Night In The Woods" are being played to millions of listeners on Austria's biggest radio station, Hitradio Ö3.

## OUR FIRST CHARITY: „TIERSCHUTZVEREIN ÖSTERREICH“

The Austrian Animal Welfare Association is a pioneer in Austrian animal protection. Founded in 1899 as the “Austrian Animal Protection and Animal Asylum Association”, a group of courageous animal lovers campaigned for the welfare of animals and thus made animal protection in Austria possible on a broader basis for the first time. To this day, we work locally in Austria, together with people for whom animals are important and valuable, to ensure that they can lead a species-appropriate and dignified life. To this day, we are financed exclusively from private donations from our animal lovers.

„HOPEFULLY NO  
MURDER ON THE  
DANCEFLOOR“

### BURSTUP

Burstup performed at Vienna Comic Con for a remarkable ten years, and at Furry conventions such as Brasil Fur Fest, Megaplex, Eurofurence, Confuzzled and Nordic Fuzz Con. He developed a unique style that fused elements of Hip-Hop, Trip-Hop, Jungle, Drum'n'Bass, Jungletek, Breaks, and House. His ability to seamlessly blend these genres into a cohesive and captivating soundscape set him apart from his contemporaries.

### KANAMAU

Popular amongst various Furry events across Europe Kana is known for his signature "Banana House" Style. You will never know what you get, but one thing is for sure... it's going to be Bananas.

### ASGRA

Confusing people about "that idiot" behind the decks since 2010. Can't help it, I simply love to party. Join me maybe?

### DRACODRACO

dracodraco is a Ukrainian music producer, DJ and a member of the artistic collective dreamstation.

### KILIANDASH

Hi my name is KilianDash, and I am an Austrian DJ who loves to play Alpenjodler Hardstyle and make people on the dancefloor lose their minds.

### TEA++

Hi, I'm Tea++! I like punchy kicks and searing synths, covering most tempo ranges. And I'm pretty sure I can find something you know the lyrics to.

### GLEXES

Do you like to Rave? I'm Glexes and i like to put on a show! Mashups, Edits, Remixes at a high energy level. Join me and lets shake the dancefloor!

...BUT WAIT,  
THERE'S MORE!

„NIGHT FALLS, SO  
PUT YOUR PAWS ON  
THE DANCEFLOOR!“

### CHEETAH

*Cheetah has been a staple of Furry parties who really can't afford a proper DJ since around they early 2000's - and now he's here, about to press the play button so hard you won't know what hit you!*

### RICHIE THOMAS

*I do things with buttons, house music, festivals, and questionable dance moves. House music will always love you back, so we can turn Awoostria into our house <333*

### DELTA THE JAY

*Delta here, your musical tour guide through the sounds of Europe. I've spent my life grooving across the continent, and now I'm bringing those vibes to you! Let's rave and have an amazing night together!*
